### LISTS OF THE COUNCIL, 1613-83.

At the beginning of almost every volume of the Register there appears a list of the Council at the date of beginning the volume : sometimes there are two lists of different dates. The lists appear to have been revised by the clerks from time to time and brought up to date by marginal additions and interlineations, thus facilitating the preparation of the list for the next volume. Obsolete titles and offices and the names of persons deceased were often underlined : this is the explanation of the italics in the latter part of the present transcript. Names struck out are also given as in the Register. Dates are given New Style.
